

KEEP SAFE IN CAMPUS FACILITIES – EVERY DAY

- I will only come to the campus if I am in good health and feeling well.
- When sick, I will stay at home and have myself tested if I have symptoms of coronavirus infection.
- I will maintain a safety distance of 2 metres from other people where possible
- I will wash my hands with warm water and soap when arriving at the college, before eating, and regularly throughout the day
- I will remember to use disinfectant hand gel if unable to wash my hands
- I will greet people warmly, without shaking hands or hugging
- I will sneeze into my sleeve and blow and wipe my nose with a disposable paper tissue
- I will keep my distance from others when queuing for food and eating
- When on campus, I will find myself a good place to work with plenty of space.
- I will ensure that I keep shared equipment clean and hygienic
- I will avoid touching door handles and surfaces with my bare hands
- I will follow the instructions and speak out and ask, if I am unsure of how to act safely when on campus
